About the Fall Gathering

The Kootenay Conservation Program Fall Gathering serves as one of the primary opportunities to connect and reconnect KCP partners from across the region.

The organizing theme for this year’s Fall Gathering is “Passing the Torch” where we will hear from experienced stewardship and conservation practitioners about their lessons learned and best practices for conservation, stewardship and restoration. We’ll also take advantage of this opportunity to have a brief Annual General Meeting for KCP Partners.

The field tour will include visits to two Indigenous-led restoration projects.
