

2017 Fall Gathering and Annual General Meeting  
**“Grasslands to Wetlands: Connecting Diversity”**  
September 29-30, 2017  
Prestige Rocky Mountain Resort, Cranbrook, B.C.

### **About the Fall Gathering**

The KCP Fall Gathering serves as one of the primary vehicles to connect and re-connect KCP partners from across the region. The organizing theme for this year’s Fall Gathering is “Grasslands to Wetlands: Connecting Diversity”. We will explore how these ecosystems provide important valley bottom habitat and how to connect both as partners and on the landscape to conserve these habitats.

### **About the Annual General Meeting**

We will take advantage of this opportunity to also have a very short (1 hour) Annual General Meeting for KCP partners.

### **About the Kootenay Conservation Program**

The Kootenay Conservation Program (KCP) is a partnership of over 80 conservation, industry, government and business organizations dedicated to conserving natural areas for Kootenay communities. The partnership coordinates and facilitates acquisitions, covenants and stewardship projects on private land. In addition, we work to build the organizational capacity of all of our partner organizations. Our vision is to have landscapes in the East and West Kootenay that sustain naturally functioning ecosystems that can in turn support economic and social well-being. We envision vibrant communities that demonstrate the principles of environmental stewardship for future generations.
